About the Company

Company History

Founded in 2017, Aqua Controllers Ltd has established itself as a trusted provider of water and wastewater management solutions locally and in the regional markets of Seychelles and Madagascar. With a strong commitment to innovation and sustainability, we have grown to serve both residential and commercial sectors, delivering high-quality projects that enhance water efficiency and well-being.

Products & Services

We specialise in the design, installation, and maintenance of pools, ponds and fountains, water and wastewater treatment plant, wellness equipment, and pumping systems. Our expertise ensures tailored solutions that meet the diverse needs of our clients while upholding the highest industry standards.

Our Mission and Vision

Mission

To create a seamless experience for our clients by delivering top-tier solutions across our fields of activities.

Vision

Together, we're committed to sustainable practices, actively providing in green technologies to protect the environment while enhancing our clients' well-being.

Our Goals

1: Expand Sustainable Solution

Continue providing eco-friendly technologies to enhance water efficiency and reduce environmental impact.

2: Strengthen Market Presence

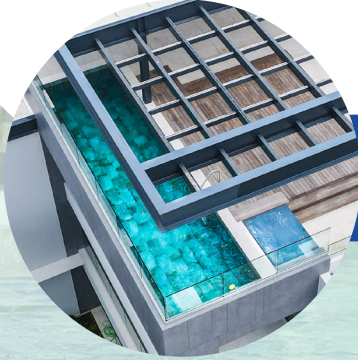

Grow our reach in our field of activities through innovation and strategic partnerships.

3: Enhance Customer Experience

Improve service quality and support by integrating advanced solutions and streamlining processes.

Our Services

Aqua Controllers offers expert solutions in pool construction, wellness projects, water and wastewater treatment, maintenance, fountain and ponds and facility management, ensuring efficiency and sustainability.

Swimming Pool

Creating a perfect and unique wellness oasis requires a thoughtful and personalised approach. Our engineers develop different designs for your dream pool and work with you to find the best solution for you using your personal specifications and wishes and the many available permutations.

Wellness

With our stressful way of life, much emphasis is nowadays being laid on wellness be it for residential and commercial purposes. We have started our collaboration with Astral Pool of Spain and Harvia of Finland in this field so that we may offer full-packaged solutions to our clients. Our full range of products for temperature, water, relaxation and treatment areas responds to the demanding needs of private residences, chains of health clubs and hotels.

Pumping Systems

We offer complete pumping systems for water (both hot and cold water) and wastewater, firefighting booster pump sets and irrigation booster pump sets for private residences, apartment blocks, offices, hotels and other developments. Representing leading equipment manufacturers we ensure the correct product is supplied for each of our clients' applications.

Maintenance

At AQUA CONTROLLERS LTD, the customer is our top priority; our pool cleaning service, our facilities management or our service + maintenance package reflects our flexibility to bring you the best service based on your requirements.

Our Services

Water and Wastewater Treatment

Most industries are reliant on water. To protect the environment, it is important that contaminants are removed from the waste stream prior to discharge. The damaging effects of all waste can be successfully reduced by optimising the process design and equipment selection of the treatment facility. Using our in-house design and engineering services, we offer a complete solution for all water and wastewater treatment requirements to ensure a cleaner, greener environment.

Facilities Management

At AQUA CONTROLLERS LTD, we provide comprehensive facilities management solutions to ensure the seamless operation and maintenance of your water systems. From routine inspections to proactive upkeep, our tailored services enhance efficiency, reliability, and long-term performance across residential, commercial, and industrial settings.

Equipment & Accessories

We offer a wide range of high-quality equipment and accessories for water management, including pumps, filtration systems, control panels, and maintenance tools. Representing leading manufacturers, we ensure optimal performance and durability for every application, providing reliable solutions tailored to your needs.

Fountains & Ponds

At AQUA CONTROLLERS LTD, we recognise the transformative power of incorporating fountains and ponds into your development projects. These water features are not only visually captivating but also enhance the Zen atmosphere, contributing to a serene and stress-free environment. Whether you seek simple water features or elaborate installations like musical fountains or koi ponds, we offer a range of services to fulfil your vision.
